

The Commercial Vehicle Group, Inc. (CVGI) is a global leader in commercial vehicle system solutions for the heavy-duty truck, construction, agricultural, industrial, marine, and specialty industries. We take pride in building products the same way that we've built our company – with commitment, strength and focused direction.

We're successful because we are committed to continuous improvement. We aren't afraid to take chances with modern processes that may improve the tried and true. We are immersed in technology in every market we serve. We're growing, penetrating emerging markets, and constantly in pursuit of innovation that will improve, shape, and define the future of the global commercial vehicle industry.

We are currently seeking an experienced **Maintenance Technician** at our Michigan City, Indiana Facility.

In this role, the incumbent will:

- Install equipment and machinery, carries out TPM program, troubleshoots and repairs all equipment and machinery, responsible for compliance with IOSHA requirements on equipment usage and repair. Overhaul and major repair of all complex equipment and machinery.
- Reads blueprint schematics, manuals and other resource material to determine work procedures, faulty components and process of repair.
- Maintains quick access to critical component parts for each machine and piece of equipment.
- Calibrates, aligns and balances machines and equipment.
- Dismantles machines and equipment for repair or movement.
- Operates diagnostic and repair equipment in the performance of maintenance duties such as circuit testers, voltmeters, and other tools as required.
- Performs electrical and electronic repairs to the component or board level. May provide leadership to maintenance workers on special assignments.
- Assesses and recommends disposition on replacement or repair of equipment.
- Assembles machines and equipment.
- Performs preventive maintenance duties as scheduled on all equipment.
- Handles hazardous materials and liquids such that spills and leaks are prevented and all such materials are contained in compliance with EPA requirements.
- Monitors unscheduled machine downtime due to mechanical breakdown, electrical problems, wear and tear, etc.
- Maintain logs as required on downed machines, preventative maintenance schedules, purchase orders, and on maintenance performed daily.
- Perform various other duties as assigned.

Requirements:

- High School Diploma/GED and 2 Years Technical School Training.
- Experience maintaining electronics, mechanical, electrical, hydraulic, pneumatic equipment, applications and repair.
- Knowledge of precision measuring instruments (e.g., micrometer, caliper, dial indicator, etc.).
- Knowledge of machine shop equipment (e.g., engine lathe, vertical milling machine, surface grinder, band saw, drill press, etc.).
- Knowledge of welding and fabrication principles (e.g., GTAW, GMAW, SMAW, OA cutting, grinding, etc.).
- Experience in PLC troubleshooting and basic programming.

- Experience working with single and three phase plant electrical systems, including DC voltage and AC voltage from 24V to 480V.
- Experience working with relay and discrete device control systems.
- Experience using sensing and control devices.
- Experience using both DC and AC motors.
- Understanding of electrical installations with conduit and wiring practices.
- AutoCAD experience a plus.
- RSlogix experience a plus.
- CNC experience a plus.

Sponsorship is not available for this position at this time.

Our eligible associates enjoy competitive wages and benefit package including comprehensive medical, dental, vision, 401(k) plan, company paid life insurance, paid holiday and vacation time off.
