

Commercial Vehicle Group, Inc. (CVGI) is a diversified industrial company that provides seating systems, electro-mechanical assemblies, wire harnesses, plastic parts, engineered structures, panel assemblies, and warehouse automation subsystems for many markets including ecommerce, e-tailing, trucking, last-mile delivery, electric vehicles, military equipment, warehouse equipment, buses, construction equipment, agricultural vehicles, specialty transportation vehicles, mining, industrial equipment and off-road recreational markets.

We are currently seeking an experienced **Quality Engineer** at our Kings Mountain, North Carolina Facility.

The ideal candidate will be someone with an analytical mindset that takes the time to understand processes to ensure that our quality systems are successful and our offerings are produced under the highest standards. The candidate should also have a strong desire for continuous improvement and an ability to work effectively in a dynamic environment.

In this role, the incumbent will:

- Provides good customer service to all customers, both internal and external.
- Responsible for administering the Quality Assurance process consistent with customer specifications or requirements both on incoming materials and product to be shipped.
- Function as liaison with customers to assess their evaluation of product and to maintain satisfactory relationships.
- Analyze and administer programs for rejections, charge backs, returns, and corrections of defective materials and shipped pieces.
- Establish and maintain liaisons with various departments to obtain, exchange, interpret, and supply information with regard to sustaining the quality managements system in all departments.
- Administer plant scrap programs.
- Participate in plant cost reduction/improvement program.
- Record keeping in order to document and sustain the quality management system and scrap program.
- Responsible for establishing, training in, and maintaining plant problem solving tools relative to product quality, i.e., Statistical Process Control (SPC), Failure Modes and Effect Analysis (FMEA) and Employee Involvement Teams (E.I.T.) etc.
- Participate in plant continuous quality improvement activities.
- Maintain ISO 14001 and IATF Certification.
- Perform other duties as assigned by the Quality Manager.

Requirements:

- Bachelor's Degree in Engineering, Quality, or related field and 3-5 years' work directly related experience. Combination of education and experience may be considered.
- Technical Skills Required:
 - Intermediate PC Skills-MS Excel, MS Outlook, MS Word, MS PowerPoint and SPC software
- Experience in ISO 14001 and IATF 16949.
- Excellent mathematical concepts.
- Excellent written and verbal communication skills to include writing business reports, correspondence, and procedure manuals.
- Ability to effectively present information to managers, clients, customers, and general public.

Sponsorship is not available for this position at this time.

Our eligible associates enjoy competitive wages and benefit package including comprehensive medical, dental, vision, 401(k) plan, company paid life insurance, paid holiday and vacation time off.

Resumes may be submitted as directed below. Include the job title in all submissions.
