In this role, the incumbent will:

- Point of contact with customer purchasing group regarding RFQ's/ECN's.
- Responsible for distributing and maintaining customer technical drawings and specifications.
- Responsible for coordinating RFQ's/ECN's through our MRP system (BAAN).
- Responsible for coordinating RFQ's/ECN's including tracking and facilitating their completion.
- Conceptualizing, modeling, and developing new fixture designs in CAD.
- Making detailed part and assembly drawings of drilling and assembly aides for fabrication.
- Build prototypes; involving drilling, mechanical fasteners, welding, etc.
- Working closely with Production associates solving day-day process issues.
- Manage design projects from concept through production.
- Manage the introduction of new parts into manufacturing.
- Applies knowledge of product development and analysis to assist in meeting organizational objectives.
- Gathers data from customer input or off-site visits to debug, modify, or correct prototype, pre-production/start-up, warranty problems, or product improvements.
- Other projects as assigned.

Requirements:

- Bachelor of Science degree in Mechanical Engineering or Mechanical Engineering Technology.
- CATIA V5, Pro/E, AutoCAD, UG, or related CAD software experience.
- Proficient skills with Microsoft Office, experience with Share point a plus.
- Knowledge of Statistical Process Control (SPC) preferred.
- CMM experience preferred.
- Welding and Fabrication experience preferred.
- 1-3 years of related CAD experience is preferred.
- 3+ years manufacturing experience is preferred.
- Project management & customer interaction experience preferred.

Sponsorship is not available for this position at this time.

Our eligible associates enjoy competitive wages and benefit package including comprehensive medical, dental, vision, 401(k) plan, company paid life insurance, paid holiday and vacation time off.

Resumes may be submitted as directed below. Include the job title in all submissions.
