

Our quality focus is to become the most valued supplier to our customer, by:

- **Problem Prevention.** Designing our products, processes, and systems using risk-based thinking to prevent quality and warranty problems.
- **Continuous Improvement of QMS.** Continuously improving our quality management systems to enhance customer satisfaction.
- **Operational Excellence.** Striving to achieve improvement in our key metric areas: safety, quality, delivery and cost.
- **Employee Investment.** Investing in the development of our people to increase employee engagement and organizational capabilities.
- **Workplace Environment.** Promote a safe, healthy, diverse, inclusive and positive environment for all employees.
